Kendal Climate Change Citizens Jury FILM

by Kendal Climate Change Citizens Jury in Kendal, England, United Kingdom

Project Facebook kendalneutral

Community, Environment

Kendal's Climate Change Citizens Jury has spoken! We want to create a short film to promote the recommendations & encourage positive change.

We did it

On 3rd November 2020 we successfully raised £2,000 with 57 supporters in 14 days

With extra funding we will be able to engage more Jury members in the private screening tour and access more organisations to encourage positive change based on the Jury's recommendations.

There's an urgent need for change. Here's something you can do to help.

The UK's first ever Climate Change Citizens Jury at a town level has been a huge success! Thank you to all the Crowdfunder supporters from February 2020.

20 Kendal residents have attended 10 Jury sessions to learn more about Climate Change in order to answer the question 'What should Kendal do about Climate Change?'

Should we be supporting communities to run their own deliberative processes like this?

Should we be supporting communities to run their own deliberative processes like this?

Yes

- a) Develops a longer term local commitment to making sure the recommendations are lobbied for.
- b) Using a community's assets - Volunteers, delivering recruitment letters, leading the selection process, recruiting and selecting facilitators, setting up the website, getting the word out.

Should we be supporting communities to run their own deliberative processes like this?

No
the risk is too high that legitimacy, independence and quality will be undermined?
