

# CONVERGENCE AND DIVERGENCE

- What are the **main elements** of politics and governance in these cases - political history, norms and values of governance
- Any **colonial vestiges** either for or against better governance and political system
- Are these Cases really **democracies** - creating new concept or descriptors for them
- **Peculiar observations** of the nature of any of the three cases
- Envisioning **strategies and modalities** - what can work now and what can work in the future
- **Feedback and knowledge** - the extent to which these presentations have improved knowledge beyond Europe/the West
